

Pi Bio Life Alkaliser

LIFE ENHANCING WATER

- Alkaliser • Anti Oxidiser ORP • Mineraliser •
- Energiser • Ioniser •

The perfect companion to all drinking water filtration systems

MAXIMUM FLOW	WATER PRESSURE	LIFE TIME
2-3 litres per minute	20-100 psi	24 months

GENUINE JAPANESE PI MEDIA

'The pH Miracle'

"Just about every condition I can think of, from arthritis to diabetes to cancer, is associated with acidity"
Dr. Robert Atkins.

Naturopathic physicians believe that at least some 157 diseases are caused by an abnormally acidic/low pH system. In fact, almost every named and unnamed disease condition has one thing in common:

higher than normal accumulation of acidic waste in the body.

Balanced body chemistry is of utmost importance for the maintenance of health and correction of disease. Acidosis, or over-acidity in the body tissues, is one of the basic causes of many diseases, especially the arthritic and rheumatic diseases.

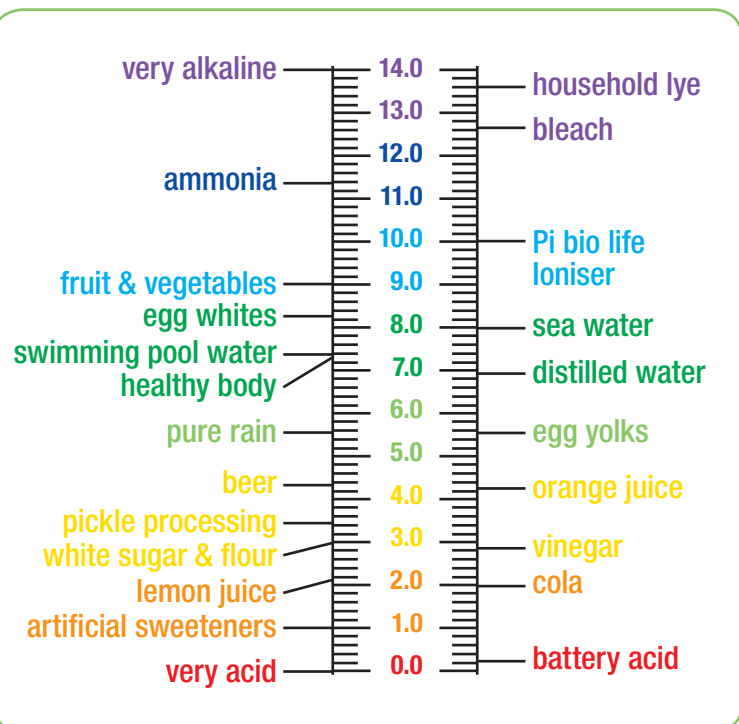

When your tap water arrives at your home, it will usually be a little over neutral in pH ~ around 7.5. You can see by the table that a very large proportion of what we consume is acidic; the perfect balance is 1 part acidic to 4 parts alkaline. Now this is very easy with the **Pi Bio Life Alkaliser**. Your body doesn't have to use all its energy trying to neutralise its pH.

Some 41% of Australian people are dehydrated. Their lack of water is making them sick. Replenishing our body's water is not a luxury, its survival. The simple step of adding high quality water back into our diet can help improve our health immeasurably.

You already know the benefits of having clean, filtered water. The **Pi Bio Life Alkaliser** can provide you with the earth's greatest resource of your personal health and peace of mind. We can provide an enhanced water that is energised and has one of the best absorption rates in the world.

The **Pi Bio Life Alkaliser** is most commonly used by people who are looking to reduce acidic toxic waste in the blood, tissues, and fluids for the body and to adhere to the more alkaline state required by most human metabolic processes.

Alkaline water is not a medicine to cure any disease. The fact that alkali neutralizes acid is elementary chemistry and requires no statistical analysis. Drinking alkaline water helps our body dissolve acid wastes and makes it easier for the body to dispose of them safely. Since the accumulation of acid wastes is aging, the reduction of acid wastes is reverse aging.

Alkalizing is really just reverting to the way we once lived. Less acidic food, less acidic beverages, less pollution, less stress...

ORP – Oxidation Reduction Potential is the ability of water or any other media to oxidise (or more importantly – decrease the oxidation of) another substance or body. Air, with a positive ORP will oxidise metal thus causing corrosion or rust. Any substance that oxidises essentially disintegrates. Water or a media with a negative ORP has the ability to decrease the oxidation, or prolong the life, of another substance or body. Pi Bio Life Alkalised and ionised water significantly increases the negative ORP thus enabling it to decrease the oxidation of other substances or bodies (our body in particular) by being a potent anti oxidant.

“The game of survival is to not get oxidized to death, literally! So we can take anti-oxidants like Vitamin C, Vitamin E etc that are free radical scavengers. These substances give up electrons and help restore the cells and molecules to a healthy state. What if I told you your drinking water can do the same?” - Dr Peter L Kopko, D.C.

ENERGISED LIVING WATER

Pi Water was developed through extensive plant research in Japan in the early 1960s. By using a special system, a bio water was created with special life and health giving properties that helped plants thrive well, and beyond normal expectations.

The research by Doctors Yamashita and Makino also found that when trace amounts of ferric/ferrous (iron) salt were energised in the water, the energy of the water increased dramatically. During 30 years of research, Pi Water's life giving energy has been shown to stimulate the self healing properties of the cells of plants and animals alike. This process created what is now referred to as “Pi Water” or “Living Water”.

- Reduces inflammation and pain in muscles and joints
- Promotes regeneration and fast healing
- Improves blood microcirculation

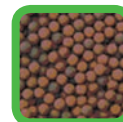

IONISED ALKALINE WATER IS SUPER HYDRATING, OXYGENATED, ALKALINE, ANTIOXIDANT & ACID FREE

STEP ONE

PHASE EFFECT 1

Volcanic Red Clay Ceramic Balls

Infra red emission and negative ionisation
Removes harmful ions and energises the water
Reduces water molecule or cluster size

PHASE EFFECT 2

Mountain Anti Oxidisation Minerals Calcined Lime Silicate, Mica and Quartz Compound

Significantly reduces negative ORP
Strong anti oxidising effect

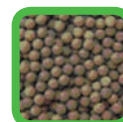

STEP TWO

PHASE EFFECT 3

Granular Magnetic Tourmaline Rock

Softening and conditioning mineral content
Energises water
Further reduces water molecule or cluster size
Stabilises negative ORP generation

STEP THREE

PHASE EFFECT 4

Granular Phlogopite Rock

Adds mineral (potassium/magnesium) ions and alkalises the water
Infra red emission and negative ionisation
Reduces water molecule or cluster size

STEP FOUR

PHASE EFFECT 5

White Quartz Ceramic Balls

Strong anti bacterial function
Mineralises (calcium/magnesium ions)
Alkalises and energises water

PHASE EFFECT 6

Condensed Bio Life Deep Sea Mineral Mix With Ionised Deep Sea Coral and Porphyries

Mineralises (sodium/potassium)
Significantly increases and stabilises pH level of water
