

# Euro Faucet Mounted Filter

## Premium Portable Drinking Water Filter System

Lightweight & Portable

Quick Installation & Ease of Operation

Superior Water Filtration

The Euro Faucet Mounted Water Filter combines the latest in filtration technology with ultimate convenience in size. Manufactured, tested and certified in Europe.

- Featuring the Aragon filter - manufactured with the patented Aragon media to remove an outstanding array of impurities including chlorine, organic compounds, petroleum products, iron, hardness salts, heavy metals, bacteria and viruses.

### No mains plumbing or tools required

Simply attach to your existing kitchen faucet and enjoy filtered water directly from your tap!

### Ease of operation

Switch between unfiltered water and production of filtered water by simply turning the diverter handle.

### Aragon Filter can be washed and reused

To extend the life of your filter, simply scrub clean under hot running water with a clean, soft brush (e.g. toothbrush) or sponge.

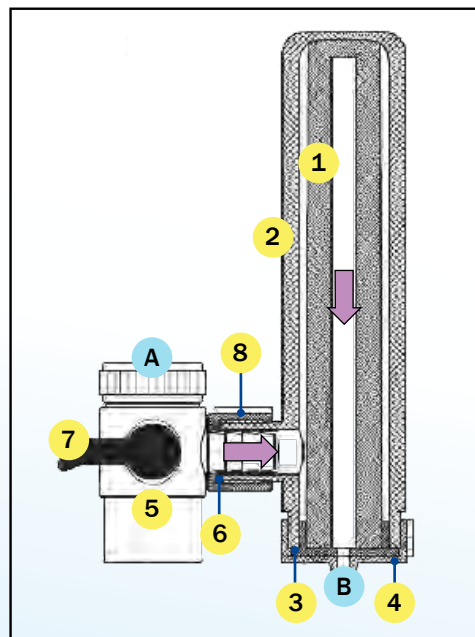

## Specifications

Item Code	IT003782
Filter Capacity	300 litres
Max Flow Rate	0.5 litres p/min
Dimensions (mm)	80 (W) x 135 (H)
Micron Rating	0.5 micron absolute

## Filtration Test Results

Impurities	% Reduction
Particulate Matter > 5 µm	100
Active Chlorine	99.0
Pesticides	99.0
Micro-Organisms	99.0
e-Coli	99.0
Legionella	99.0
Turbidity, Zinc, Lead, Cadium	95.0
Iron, Aluminium	90.0

## Labelled Assembly

- 1 Aragon filter
- 2 Housing
- 3 Packing ring
- 4 Screw cap
- 5 Diverter
- 6 Sleeve
- 7 Diverter Handle
- 8 Clamping nut
- A Mains water in
- B Filtered water out
